## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Orton, 3,439,482.

Orton discloses a harvester capable of harvesting cranberries including:

- a frame (Column 1, lines 55-67)
- a plurality of dislodging rods (28,30) secured below the frame and substantially parallel to the field surface and generally perpendicular to the direction of movement

The dislodging rods move forward through the plants at the speed of the frame.

Regarding claim 22, the dislodging rods are angled slightly rearwardly (Fig. 1).

Regarding claim 23, the ends of the rods are considered springs since they are flexibly mounted.

Regarding claims 24-25, the dislodging rods are secured to the frame by follower assemblies (25).

3. Claims 26-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Brateng 2,544,443.

Art Unit: 3671

Brateng discloses a dry method of harvesting cranberries including:

- moving a frame mounted dislodging rods (24) over cranberry plants at the speed of the frame
- vacuuming up the dislodged cranberries immediately after dislodging them and collecting them in a container (15)

*Allowable Subject Matter*

4. Claims 1-20 are allowed.

*Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
